

# Increase Speed, Efficiency, & Savings

## Bring industry solutions experts onsite at no cost.

When was the last time a supplier helped your business reduce costs or improve operational efficiency? Summit's Solutions Experts will analyze your business and create an actionable plan for meeting your goals.

### With a Site Assessment, you'll:

- **Identify Efficiency Opportunities** – Conducting in-depth site evaluations with time + motion studies and swim lane analysis allows Summit to help our customers uncover areas for improving site efficiency.
- **Reduce Wasted Effort, Motion, and Rework** – Your fully implemented solution will result in a more operationally efficient and better workplace environment.
- **Solutions As Unique As You** – Every customer faces different challenges, which deserve unique solutions. We get to work solving your pain points.
- **Grow Your Bottom Line** – Becoming more efficient and reducing waste ensures you achieve your savings goals. Customers generally achieve a 25% reduction in their costs after implementing Summit Solutions®.
- **Get More Done with Less** – Finding enough, and the right labor is a constant challenge. Our solutions are designed to automate repetitive tasks and free up labor for more critical tasks.

### Use a Site Assessment To:

Increase Efficiency

Decrease Waste

Tailored Solutions

Grow the Bottom Line

Put Summit's Services & Solutions team to work for your operation. Call **(800) 488-5500** for your free Site Assessment today.
